Your Leadership Centre of Excellence

Being an IMI Corporate Member means your people have access to world-class leadership development all year round. IMI Corporate Membership is available at two levels: **Inform** and **Transform**. Each level gives you a flexible pathway to provide people in your organisation with learning and development opportunities throughout the year.

 **Inform**

 **Transform**

“

“IMI Corporate Membership provides our talent with access to world-class education and training combined with excellent peer experience sharing.”

Ger O'Mahoney, Partner, PWC Ireland

This year, our suite of events will comprise of two distinct formats:

Delivered online, these events give you the flexibility to access ground-breaking thought leadership from wherever you may be.

Meet your peers and reap the benefits of interacting with our globally renowned thought leaders in person.

2023 Themes

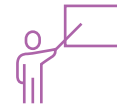

Successful leadership is not just focused on the present, it learns from the past and anticipates the future. IMI Corporate Membership will give you the insights you need to lead tomorrow.

We have **identified 3 key themes** that leaders need to focus on from our research into the future of work and the insights of thought leaders into the latest trends.

We have **built a calendar of events** over the next year that will explore these key themes in detail and help you to plan and prepare for them in your organisation and incorporate them into how you work.

We have **planned a series of** Masterclasses, Mini-Masterclasses, Webinars, People Strategy and Future of Work events to help you stay on top of these changes so you can learn and grow throughout the year.

1 Master the Change Agenda

If the last few years have taught us anything it is that change is inevitable, so leaders must learn how to navigate it to overcome the challenges and unlock the opportunities.

2 Rethink for Sustainable Growth

The way we work has changed fundamentally so it's time to rethink our approach to collaboration, talent acquisition, creativity and innovation.

3 Build for Next Generation Leadership

The shift towards human-centric leadership means that leaders need to shift their focus to areas like employee wellbeing, intellectual humility and sustainability to inspire, motivate and retain employees.

IMI/30% Club Network Mentor Programme

The IMI/30% Club Network Mentor Programme offers organisations across Ireland the opportunity to participate in a unique cross-company initiative designed to deliver an exceptional mentoring experience to your high potential talent mentees and your senior executive mentors. With participants from Irish-based organisations working as far afield as North America and India getting involved, the programme has developed a global footprint, benefitting from the flexibility that virtual provides. Mentoring is a critical leadership development opportunity and a key element of any human capital strategy designed to attract, retain, develop and maximise an organisation's key talent capability.

You identify two senior executives interested in mentoring alongside two high-potential mentees to join one of the country's most successful mentor programmes. By allowing your people to step outside their own box and find new angles to their thinking, you will experience the positive ripple effects throughout your organisation.
